SPECIFICATIONS

.This Segue 46 Flybridge has the impressive drive available from its twin Cummins engines to power you through the water when you want to skim the ocean at up to 32 knots, and it has the class, the light and airy space, and the comfortable luxury finish, for entertaining your guests when moored dockside.

With a length of 14.5m and beam of 4.25m it has the versatility to take you, your family and friends exactly where you want to be.

Beautifully hand crafted by Master Crafts People, utilizing their well-honed skills to work the high quality materials and components into a wonderfully versatile home on the waves. The wooden decks, polished stainless steel and glass, the leather upholstery, the high tech equipment, all serve to wrap you in the Unique, Elegant and Exclusive world that is Segue Yachts.
