BESPOKE CIGAR ACCESSORIES
OF THE WORLD

ENDURING INNOVATION

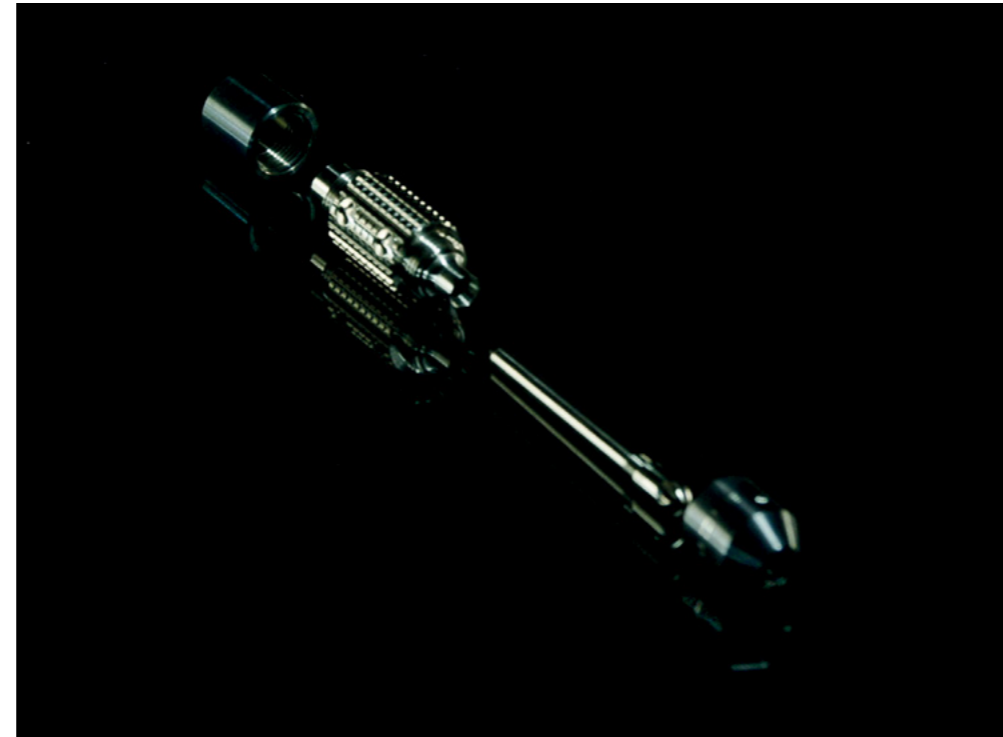

At Solloshi, we dare to be different and to push the envelope of conventional cigar accessories, delivering captivating aesthetics that exude strength with a futuristic edge.

CAPTIVATING DESIGN

A unique blend of visionary design, impeccable craftsmanship, and an unwavering commitment to excellence, makes Solloshi one of the top cigar accessory makers in the world.

MORE THAN A LUXURY GIFT

Join the exclusive Solloshi club: a prestigious keepsake for cigar enthusiasts and non-smokers alike. Experience the joy of cigar enjoyment together with a spirit of shared luxury.

PREMIUM MATERIALS

We believe in using only the finest materials in our creations. Incorporating premium materials such as titanium, cedar wood, Scandinavian birch wood, and even diamonds as the icing on the cake.

A TRUE RARITY

Solloshi accessories epitomise the pinnacle of luxury, with their unparalleled craftsmanship and limited availability, our precious cigar accessories offer a gateway to a world of unmatched opulence.

EXCLUSIVE EXPERIENCE

Unleash an extraordinary, multi-dimensional cigar experience through unparalleled luxury and distinction. Solloshi's exclusive capsules offer effortless replacement and maintenance, embodying the hallmark of premium craftsmanship.

PRISTINE MANUFACTURING

By blending traditional techniques with state-of-the-art manufacturing processes, our engineers skillfully harmonize each creation, infusing it with a sense of heritage, artistry, and upscale sophistication, positioning us among the top-tier in our industry.

EXTREME DURABILITY

With our exquisite finishes and precise engineering, our accessories stand as a testament to our unwavering commitment to providing cigar connoisseurs with a luxurious and enduring cigar experience.

SUPREME HUMIDORS

Every Solloshi wooden humididor features a crucial element: a titanium capsule on the top of the box and a stainless steel capsule inside. These capsules enable a flexible humidification and flavoring system, providing users with nearly limitless options for storing and enhancing the flavor of their cigars. Become a true connoisseur of cigars and unlock your potential as a professional cigar sommelier.

HUMIDORS

CLASSIC SOLLOSHI HUMIDOR

Crafted with utmost precision, the outer case of our humidor is meticulously CNC machined from a single piece of laminated Scandinavian birch wood, sourced from sustainable forests.

This exclusive material boasts exceptional durability and unrivalled beauty, an attribute that is not found in ordinary humidors. Our environmentally friendly dying process further enhances the natural beauty of the wood, producing a unique colour that contains no harmful substances. Rest assured, with our choice of material, you are investing in a piece that replaces an endangered wood species from rainforests from developing countries, such as brown merbau, blackish wenge and other exotic and rare wood types.

The interior of our humidor is nothing short of perfection, made of meticulously selected cedar wood, handpicked to ensure the absence of any defects. The wooden parts on the interior are masterfully crafted with precision joints without any use of adhesives. This creates an immaculate environment, free of unwanted odours or flavours, a haven for your prized cigars.

Every Solloshi wooden humidor features a crucial element: a titanium capsule on the top of the box and a stainless steel capsule inside. These capsules enable a flexible humidification and flavoring system, providing users with nearly limitless options for storing and enhancing the flavor of their cigars. Our top-of-the-line humidor is designed with the utmost sophistication, featuring two exterior stainless-steel gas springs that facilitate a graceful and effortless opening motion. The top also includes two exterior humidifiers made of titanium with tempered glass lids that allow you to add humifluid or any spirits to the system without disrupting the harmonious environment.

The Adorini hygrometer adds an air of exclusivity, giving you the power to maintain the perfect humidity level inside the humidor.

The humidor sits on four premium titanium legs, enhancing its stability and aesthetics, making it a centerpiece of any luxury living space. With the capacity to hold up to 8-16 pieces of cigars, our humidor is the ultimate choice for cigar enthusiasts seeking uncompromising quality and style.

Considering the internal volume and the size of our humidifier capsule, it is possible to accommodate a greater quantity, but we do not recommend stacking cigars in three rows within our own humidor.

Indulge in the luxury of our humidor and provide your cigars with the perfect storage solution they deserve. With the perfect harmony of functionality and elegance, our humidor is an investment in the ultimate cigar experience.

HUMIDORS

GRAND SOLLOSHI HUMIDOR

Introducing our pièce de résistance, the Grand Solloshi Humidor - the ultimate statement piece for the most discerning cigar aficionados. It stands as an extraordinary testament to sophistication and grandeur, doubling the size of our beloved Classic Solloshi Humidor.

Every detail of this exquisite masterpiece has been meticulously crafted with utmost precision. The outer case, a marvel of craftsmanship, is CNC machined from a single piece of laminated Scandinavian birch wood, sourced exclusively from sustainable forests. This exclusive material boasts exceptional durability and unrivalled beauty, an attribute that is not found in ordinary humidors.

Our environmentally friendly dying process further enhances the natural beauty of the wood, producing a unique colour that contains no harmful substances. With our choice of material, you are investing in a piece that replaces endangered wood species in rainforests from developing countries, such as brown merbau, blackish wenge and other exotic and rare wood types.

The interior of our humidor is perfectly made from carefully selected cedar wood, each vetted to ensure the zero defects. Masterfully crafted wooden parts with precise joints featuring no adhesives. This establishes another immaculate environment, free of any undesirable odours or flavours, heaven for your favourite cigars.

Every Solloshi wooden humidor features a crucial element: a titanium capsule on the top of the box and a stainless steel capsule inside.

These capsules enable a flexible humidification and flavoring system, providing users with nearly limitless options for storing and enhancing the flavor of their cigars. The humidor boasts two stainless-steel gas springs on the exterior, ensuring a smooth and effortless opening motion. The top of the humidor is equipped with two exterior humidifiers, constructed from titanium and crowned with tempered glass lids. This innovative feature allows you to seamlessly introduce humifluid or any spirits into the system, preserving the harmonious environment within. Adding an air of exclusivity, the Adorini hygrometer lets you monitor and maintain the ideal humidity level.

The humidor gracefully sits on four premium titanium legs, enhancing its stability and aesthetics, making it a centrepiece of any luxury living space. With the capacity to hold up to 16-32 pieces of cigars, our humidor is the ultimate choice for cigar enthusiasts seeking uncompromising quality and style.

Considering the internal volume and the size of our humidifier capsule, it is possible to accommodate a greater quantity, but we do not recommend stacking cigars in three rows within our own humidor.

Experience the luxury of our humidor to provide your cigars with the perfect storage solution they deserve. Embracing the perfect balance between form and function, this humidor presents itself as a great investment in the ultimate cigar experience.

HUMIDORS

SERIES 6

Introducing the Series 6, the ultimate expression of luxury and refinement for the discerning cigar aficionado. This limited-edition masterpiece, with only 6 pieces ever to be produced, is a testament to Solloshi's commitment to providing the ultimate in luxury and exclusivity.

The Series 6 is a true masterpiece of form and function, expertly blending 7075 aluminium, titanium, cedar wood and glass to create a robust cylindrical design that exudes elegance and sophistication. Each piece is meticulously crafted by hand, using the latest CNC manufacturing techniques and special surface treatments, resulting in a humidor that is truly one-of-a-kind.

The manufacturing process of one of the largest humidors by Solloshi, is a testament to the brand's commitment to excellence, taking over 130 hours of precision CNC machining and manual polishing to achieve the perfect finish. The intricate wood interior of the chamber is assembled piece by piece inside a tempered glass tube housing, with each cedar wood piece carefully selected and placed to create a harmonious and elegant appearance.

The wood is first CNC machined and then hand polished to perfection, ensuring that the humidor's interior is free from any contaminants that may affect the taste of your cigars.

The titanium parts of the humidor take an additional 120 hours of machining and manual finishing, illustrating the painstaking effort and expertise involved in finishing titanium to the highest standards. The result is a humidor that is not only beautiful to behold, but also built to last, maintaining its perfect appearance even with extensive use.

The humidor capsules are also made of surface-treated titanium that can be easily removed to add water to the system without opening the humidor itself. The door of the humidor boasts an integrated WEMPE hygrometer and opens with a precisely fitted special latch, while 14 pieces of 1.3 mm diamonds adorn the door, adding a touch of luxury and elegance.

With its modern and nautical-inspired design, the Series 6 is the perfect addition to any home interior or yacht. The chamber holds between 12-18 cigars depending on the size, making it the perfect companion for cigar aficionados who appreciate the finer things in life.

Dimensions:

Total length:	430 mm
Width of the stands:	210 mm
Height (with the stands):	256 mm
Chamber interior diameter:	146 mm

TRAVEL HUMIDORS

SERIES 888 LARGE TITANIUM CIGAR TUBE

Traditional materials like leather, wood, and steel have long been used to craft cigar cases. However, modern cigar enthusiasts who seek a contemporary yet luxurious option may desire something different. Introducing the new Series 888, a reinvention of the well-known cigar accessory that boasts innovative features and a distinctive design.

The Series 888 offers an extraordinary place for your favourite cigars, regardless of their size. Even an 8.07-inch (205mm) cigar with a ring size of 55 (22mm) can enjoy an optimal environment within this remarkable creation. Its interior, precision-machined through CNC technology, includes an enclosed humidifier, ensuring your cigar remains in pristine condition throughout your journey.

Its formidable strength stands as a shield, safeguarding your treasured cigars even under more extreme conditions, while its elegant allure adds a touch of refinement to the case. Refilling the humidifier is now also easier and safer, as it can be done without opening the pod.

Crafted from five exquisitely milled titanium parts, the Series 888 exhibits a supreme level of craftsmanship that is apparent even from a distance. One thing is certain: when you retrieve your finest cigar from a Series 888 pod, your onlookers will be astounded, not just by the cigar itself.

Uniquely, the Series 888 features a complex structure assembled from five separate parts, and every pod in the series includes an adapter. This adapter allows you to assemble cigar tubes of three different lengths, ranging from 4.8 inches (122mm) to 8.267 inches (210mm) in inner length.

Inside: 0,944" x 8,267" (24 mm X 210 mm)

Suggested maximum cigar diameter: ring 55(22mm)

Suggested maximum cigar length: 8,07" (205mm)

Each cigar tube includes a small humidifier.

Weight: 140/179/218g

Material: Grade 5 Titanium

Finishing: nACo coated with diamond implantation

TRAVEL HUMIDORS

HYPERION TITANIUM TRAVEL CASE

Hyperion was one of the twelve Titan children of Uranus - the god of sky - who dethroned their father. Hyperion was the rebel who challenged the status quo and this piece of industrial art is paying homage to this brave attitude. The material of choice is out of the question: titanium.

This piece of industrial art was designed for the true cigar aficionados who travel with multiple cigars, not just a single one. The extravagant design is up to the standard of a Pagani Huayra and if you travel with a car of this calibre, why not give the same treatment for your beloved cigars during your grand tours? The Hyperion Titanium Travel Case reflects master workmanship of a superior level to last a lifetime.

The Hyperion titanium humidor boasts a remarkable feature that sets it apart from the rest: an external humidifier. This innovative design allows for effortless maintenance of optimal humidity levels without the need to disturb your prized cigar collection by opening the lid. Experience the unparalleled convenience of this one-of-a-kind humidor, which ensures a consistent level of moisture throughout its interior, guaranteeing that your cigars are preserved to perfection.

The Hyperion case keeps three to five pieces of your finest cigars in pristine condition no matter how rough your journey is. The integrated humidifier ensures optimal humidity during your trips so you can enjoy your delicacies in their prime whenever you are.

The Hyperion Titanium Travel Case carries 3 of your largest cigars with up to 220 mm length and 22 mm width or even up to 5 pieces with 18 mm max. diameter.

Inner diameter: 2,08"(53 mm) Inner length: 8,68"(220,5 mm) Outer diameter: 2,36"(60 mm) Outer length: 11,3"(287,1 mm) Weight: 1050 g
Finishing: nACo coated with diamond implantation

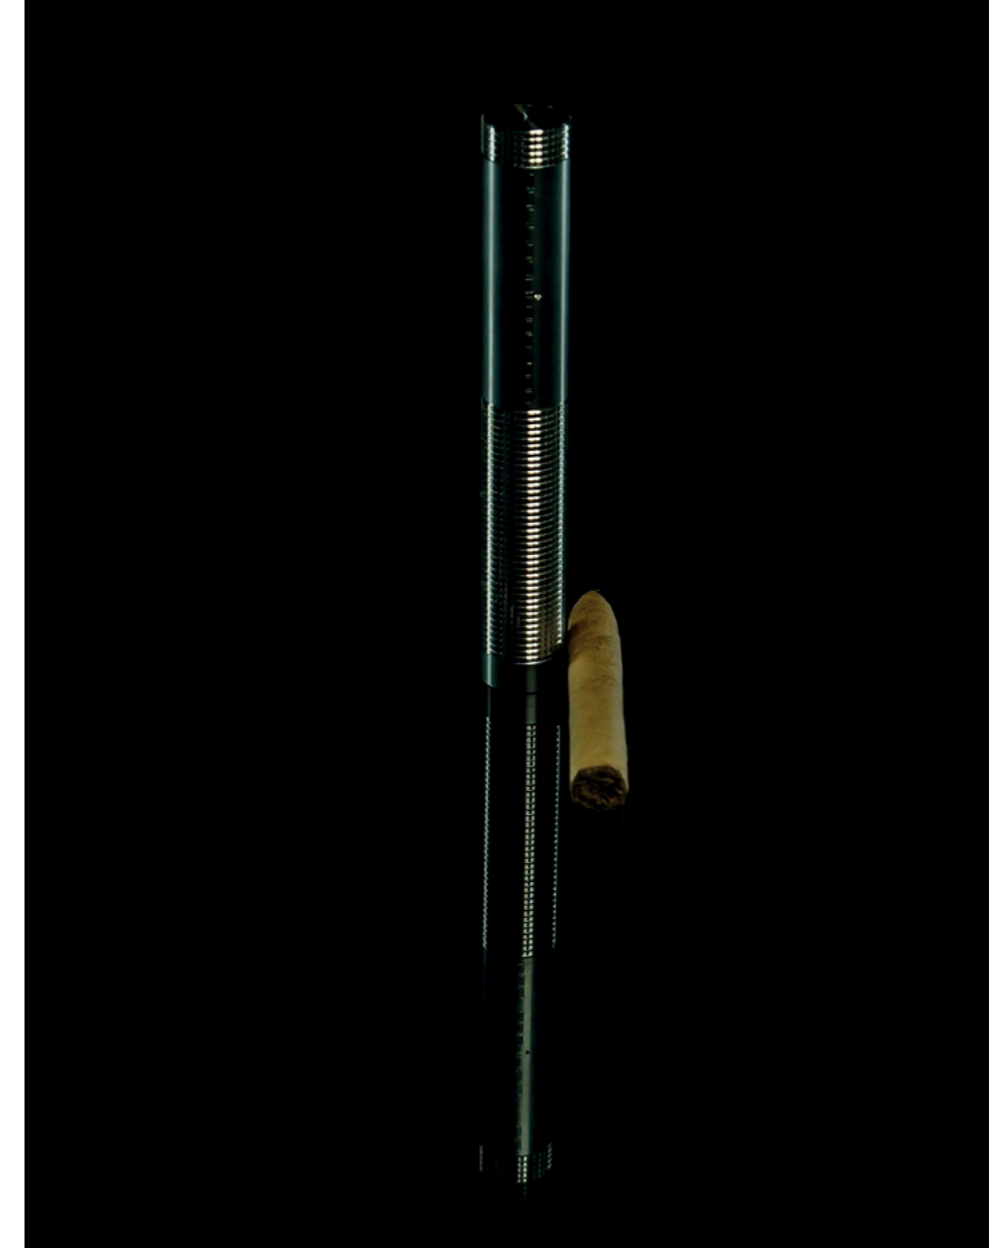

TRAVEL HUMIDORS

SERIES 888 SMALL TITANIUM CIGAR TUBE

Leather, wood and steel have all been used traditionally to create cigar pods, but what if the modern cigar aficionados want something different, something modern but similarly luxurious? With the creation of the new Series 888 we have reimagined this well-known cigar accessory to give it new functions and a distinctive appearance.

The Series 888 is undoubtedly the ultimate VIP treatment for your favourite cigar, no matter how large it is. Even a 6,889" (175mm) cigar with ring 43 size (17mm) can enjoy the most optimal environment a fine cigar may get: a CNC machined interior with an enclosed humidifier, which ensures you will find your cigar in the same pristine condition as you left it in before your journey.

The humidifier can be filled without opening the pod, making this process easier and safer than ever before. Be it a wild African safari, a sailing adventure or a jungle roam, you can be sure that your well-deserved smoke is waiting for you in this robust but elegant cigar pod.

Five pieces of precision milled titanium parts build up this astonishing object and the supreme level of craftsmanship shouts from miles. You can take one thing for granted: when you pull out your finest cigar from a Series 888, your spectators will be amazed. And not because of the cigar... Complex structure, assembled from five separate parts. All 888 series contain an adapter. With this adapter you can put together 3 different length cigar tube (from 3,937"(100mm) to 7,086"(180mm) inner length)

Inside: 0,748" x 7,086" (19 mm X 180 mm) Suggested maximum cigar diameter: ring 43(17mm) Suggested maximum cigar length: 6,889" (175mm) Weight: 99/133/157g Each cigar tube includes a small humidifier.

CIGAR CUTTER & PUNCH

HARPE TITANIUM CIGAR CUTTER

Introducing the ultimate cigar cutting experience - the Solloshi Harpe Titanium cigar cutter. Made from the highest-grade titanium, this cutter is CNC machined to precision, ensuring an unparalleled level of quality and durability. The sleek and futuristic design of the cutter is not only visually striking, but also ergonomically designed to fit comfortably in the palm of your hand. Its slim width of only 6mm adds to its elegance and sophistication, measuring at 98.89 mm tall and 53.92 mm wide on its widest point.

The Harpe cutter effortlessly accommodates cigars with a diameter of 26 mm, making it the perfect tool for any cigar enthusiast. The Solloshi Harpe cutter is a perfect blend of style and functionality. Its unique tear-drop shape not only adds to its aesthetic appeal, but also makes it ultra-portable, fitting easily into any pocket. Whether you're a cigar aficionado or a casual smoker, this cutter is the perfect accessory to elevate your smoking experience.

One of the standout features of the Solloshi Harpe cutter is its exchangeable blade system. The cutter comes with a precision-engineered blade that can be easily swapped out when it dulls, ensuring a perfect cut every time. This not only prolongs the life of the cutter but also guarantees that you'll never have to deal with a poorly cut cigar again.

The Harpe cutter is not only a tool for cutting cigars, but a statement of luxury and elegance. The titanium construction gives it a weighty feel that exudes quality, while the CNC machining ensures a level of precision that is unmatched by any other cutter on the market. It's not just a tool, but a piece of art.

The Solloshi Harpe cutter is the epitome of luxury and quality and it makes a great gift for the cigar lover in your life. Its unique and futuristic design is sure to impress, and its high-end construction will make it a cherished possession for years to come. Upgrade your cigar cutting experience and add a touch of luxury to your collection with the Solloshi titanium cutter.
